Text Responses

Improvement suggestions

Give more examples in the programming assignments. sometimes we get the assignment and are just left alone to figure something else with little guidance given.

Have less programing assignments it gets to be a lot to do especially when the learning labs are late in the week.

Post all assignments/powerpoints in advance so students can get ahead and learn at their own pace :)

Nothing

its good

Other comments

Great class!

This class has been a lot of fun! I really enjoy having Professor Derbinsky, and I'm going to try to be in more of his classes :)

This course was awesome and a great course to take before CS2.

Comments for professor

I had some issues with grading policy early int the semester

The other classes are not doing lab assignments and are doing a few less programming assignments than we did. I feel like this class had almost 2x as much work and was held to a higher standard with the junit tests. I understand you want us to know the material but i think the amount of work we did compared to the other classes was a little ridiculous.

VERY GOOD TEACHER

two thumbs up Nate Derbinsky

Great Prof

Thanks for a great semester! :) looking forward to having more classes with you in the future! :)
